**The World Culture Centre, 7 Nørre Alle, 2200 Copenhagen N**

**Tuesday, September 28, 19h.**

**Kaloe - Organic Agricultural College, 1 Skovridervej, Rønde**

Attend this exciting and instructive public meeting and get a deeper understanding of the contributions of Danish development aid in Vietnam and Tanzania. We are focusing on the first of the 2015 goals: “To eliminate extreme poverty and hunger” and the themes of the meeting will be development strategies and new trends of cooperation.

Learn about a development project where new agricultural methods – extremely successful in Vietnam – are benefiting Tanzanian farmers. An exciting project demonstrating how a Danish NGO creates South-South cooperation between Vietnam and Tanzania.

John Wihallah, Chairman of Njombe Agricultural Development Association (NADO), Tanzania, and Hang Nguyen Thi Thu from the Farmer Field Schools in Vietnam will speak.

At the meeting in Copenhagen counselor Nguyen Hai Bang from Vietnams Embassy will speak about the significance of development aid and the NGOs organizing the meeting will talk on their development projects.

Welcome – admission free

The meeting language will be English (Danish interpretation possible)
